

MK6 RGB

If you want a stylishly modern glass look for your hardware but with minimal space, then the MK6 RGB is the right choice. This eye-catching micro-ATX case not only puts the focus on the hardware, but also on a good airflow. This is thanks to three pre-installed addressable RGB fans along with a specially designed intake of air through a side panel. In addition, the compact MK6 RGB is equipped with modern connectivity, BTF mainboard compatibility, and plenty of space for components.

Features

■ STYLISH GLASS LOOK

A special highlight of the MK6 RGB is the modern look of the tempered glass, which forms a continuous window around the front and side of the case.

■ GLASS CASE WITH IDEAL AIRFLOW

For the ideal airflow, the MK6 RGB comes with three pre-installed addressable 120 mm RGB LED PWM fans, two of which have a reverse airflow to draw air into the case through the side panel. For even more airflow, there is enough room for up to eight fans.

■ READY FOR DUAL RADIATORS

If you prefer water cooling for the MK6 RGB, a 360 mm radiator can be simultaneously operated with another radiator of up to 240 mm.

■ SUPPORT FOR BTF MAINBOARDS

In addition to conventional micro-ATX mainboards, the MK6 RGB is compatible with almost all BTF alternatives on the market.

■ IDEAL CONNECTION OPTIONS

With modern connections for TRRS and USB-C on the side of the case, the MK6 RGB also focuses on the widest possible compatibility with mobile and peripheral devices. In addition, a controller provides the connection and operation of up to four LED components and four PWM fans.

■ SPACIOUS DESIGN

The MK6 RGB can accommodate large graphics cards of up to 41 cm, while mounting support is provided by a rubberized graphics card holder. CPU coolers with a height of up to 17 cm will find room in the case, as well as power supply units with a length of up to 23.5 cm. And there is installation space for up to two 3.5" HDDs or three 2.5" SSDs.

■ SUPPORT FOR BTF MAINBOARDS

In addition to conventional micro-ATX mainboards, the MK6 RGB supports almost all of the new BTF formats on the market.

Specifications

Product Name	MK6 RGB
Form Factor	Micro-ATX
Expansion Slots	5
Interior Painting	✓
Tool-Free Devices Installation	✓
Cable Management System	✓
Side Panel	Tempered Glass
Graphics Card Holder	✓
Color Versions	Black, White
Dimensions (L x W x H)	43.5 x 22.5 x 44.5 cm

Max. Drive Bays

2 x 3.5" | 3 x 2.5"

I/O

Type-C (USB 3.2 Gen 2): 1 | USB 3.0 (Left): 2 | Audio (Left): TRRS

Fan Configuration

Side Panel	2x 120 mm Addressable RGB LED PWM Fan (Pre-installed) or Radiator* (Optional)
Rear Panel	1x 120 mm Addressable RGB LED PWM Fan (Pre-installed)
Top Panel	3x 120 mm or 2x 140 mm Fan or Radiator (Optional)
Bottom Panel	2x 120 mm Fan (Optional)
PWM Fan Hub	4-Port

RGB Compatibility

Type	Addressable
Ports	4
Manual Control	22 Modes
Mainboard Compatibility	MSI Mystic Light Sync, ASUS Aura Sync, Gigabyte RGB Fusion Ready, ASRock Polychrome Sync
RGB Pinout	5V-D-coded-G

Compatibility

Mainboard	Mini-ITX, Micro-ATX (BTF)
Max. Length Graphics Card	41.0 cm
Max. Height CPU Cooler	17.0 cm
Max. Length PSU	23.5 cm
Max. Height Radiator incl. Fan (Top)	6.0 cm

Package Contents

MK6 RGB, Accessory Set

EAN Code

MK6 RGB White	4044951041800
MK6 RGB Black	4044951041794

*A graphics card length of more than 26 cm may conflict with radiator installation on side panel
