

ELITE SHARK CA200

The CA200 from the ELITE SHARK series is a sturdy ATX full tower. This PC case stands out with its RGB highlights, state-of-the-art features and a gaming design based on simple elegance. The CA200 caters to the needs of hardware hobbyists and serious enthusiasts alike: It contains extensive room for fans and radiators, has both horizontal and vertical installation possibilities for graphics cards, and provides professional cable management as well as room for large high-end hardware components.

Features

SHOW YOUR SYSTEM

The inside workings of the case can be showcased through the large tempered glass side panel. This is hinged, providing quick access to the hardware and complementing the PC case's look of quality. The front panel of the CA200G features a blackened mirror central element made of tempered glass. The front panel of CA200M has mesh central element for enhanced airflow.

SUBTLE COLOR ACCENT

Apart from the two integrated LED strips on the front panel, the CA200 also has a pre-installed 120 mm fan with addressable LEDs on the rear panel, providing a subtle color accent.

READY FOR YOUR AIRFLOW

With double radiator support and locations for up to seven fans, the CA200 is more than ready for your individual airflow solution. All the openings for air intake are, of course, protected with removable dust filters.

NO COMPROMISES

With giant dimensions and a tidy layout inside, the CA200 ATX full tower offers a user-friendly design without any compromises for all hardware enthusiasts.

VERTICAL GRAPHICS CARD INSTALLATION

Whether classic installation or vertical, the CA200 is entirely made for personal taste. An installation set for the vertical installation of graphics cards is available optionally.

Specifications

Product Name	ELITE SHARK CA200
Available Versions	CA200M, CA200G
Form Factor	ATX / E-ATX
Expansion Slots	8
Interior Painting	✓
Cable Management System	✓
Side Panel	Tempered Glass with Hinge
Graphics Card Holder	✓
Weight	11.5 kg
