

# ELITE SHARK CA700

With the ELITE SHARK CA700, Sharkoon presents an impressive premium case in a class of its own. Its striking contours and high-quality workmanship harmonize with the numerous features and the colossal dimensions that all make up the CA700. Up to eight RGB fans and a water-cooling system with two 360 mm radiators can all find room inside the case, while the graphics card can also be positioned vertically. In addition, the case body can be tilted and locked in four positions via its base.

## Features

### IDEAL COOLING PERFORMANCE

With its elegant design, the ELITE SHARK CA700 has been formed in such a way that there are opportunities on all sides for creating an ideal airflow. Even when the system is being used at full capacity, an ideal cooling will always be ensured. There are installation options for up to eight 120 mm RGB LED fans to effectively cool down the installed components. Five fans are already pre-installed for immediate use, and, of course, the interior of the ELITE SHARK CA700 can also be water cooled. However, what is special about this case is the possibility of installing two 360 mm radiators at the same time: one in the top of the case and another next to the mainboard. The pump can be installed at the front end of the case: either mounted standing or attached to the mainboard tray.

### MADE FOR AN IMPRESSIVE ILLUMINATION

The sheer size of the case allows for a correspondingly open display of the illuminated components. These, along with an extensive water-cooling system, will come brilliantly into their own. If desired, the graphics card can be installed vertically and thus be allowed to shine in all its splendor through the side panel made of tempered glass.

### TRULY UNCONVENTIONAL

The ELITE SHARK CA700 impresses with its strikingly unconventional form along with its single, large base. The case is therefore not only an eye-catcher in itself, but also offers the option of being tilted and locked in four positions. On the right side of the case, the cables can be easily and cleverly arranged and then concealed behind the side panel. The glass side panel, on the left side, can be installed or removed with ease thanks to a mounting bracket which supports the panel from underneath. The front panel can be lifted open to inspect the installed fans inside, and protective PTFE allows the panel to be opened smoothly without leaving any scratches on the paintwork. While both the top and front panels can be opened to allow access to the RGB fans, the front panel can also be fixed in position using the included hex key. In this way, it does not have to be continually held in place, and both hands are free for working on the case and the fans.

### A LOT OF SPACE FOR A LOT OF PERFORMANCE

Large graphics cards up to a length of 47.5 cm can be easily integrated into case without them touching the side panel or restricting the use of the other slots when these are required. Up to two 3.5" HDDs or six 2.5" SSDs can be installed in the CA700, as well as a CPU cooler of up to 16.5 cm.

## Specifications

Product Name	ELITE SHARK CA700
Form Factor	ATX
Interior Painting	✓
Water Cooling Pump Holder	✓
Vertical Graphics Card Kit	✓
Cable Management System	✓
Side Panel	Tempered Glass
Expansion Slots	7
Weight	20.0 kg
Dimensions (L x W x H)	63.2 x 25.0 x 67.0 cm

### I/O

Type-C (USB 3.2 Gen 2) (Top): 1 | USB 3.0 (Top): 2 | Audio (Top): ✓

### Max. Drive Bays

2 x 3.5" | 6 x 2.5"

### Fan Configuration

Front Panel	2x 120 mm Addressable RGB LED PWM Fans (Pre-Installed)
Top Panel	3x 120 mm Addressable RGB LED PWM Fans (Pre-Installed) or Radiator (Optional)
Side Panel	3x 120 mm Fans (Optional) or Radiator (Optional)

### RGB Compatibility

Type	Addressable
Ports	8
Manual Control	20 Modes
Mainboard Compatibility	MSI Mystic Light Sync, ASUS Aura Sync, Gigabyte RGB Fusion Ready, ASRock Polychrome Sync
RGB Pinout	5V-D-G & 5V-D-coded-G

### Compatibility

Mainboard	Mini-ITX, Micro-ATX, ATX
Max. Length Graphics Cards	47.5 cm
Max. Height CPU Cooler	16.5 cm
Max. Length Power Supply	19.5 cm
Max. Height Radiator incl. Fan (Top)	7.0 cm
Max. Height Radiator incl. Fan (Side)	9.0 cm
Radiators (Optional)	Up to 360 mm (Top Panel) Up to 360 mm (Side Panel)

### Package Contents

ELITE SHARK CA700, Accessory Set, Manual

### EAN Code

ELITE SHARK CA700 4044951032112
