

## M25-V

The M25-V is a PC case with timeless design and made for price-conscious users. The elementary front panels with their mesh trims make this a suitable case for any gaming setup and a perfect fit in any office. The integrated tunnel keeps things tidy and offers space for power supplies, cabling and data storage drives. There is thus plenty of room for large components as well as enough fans for providing the best airflow.

### Features

#### EVERYTHING TIDY

The special construction of the M25-V's interior offers a range of possibilities for discreetly installing various elements of the hardware. The cabling allows itself to be easily integrated in the tunnel, inside of which the power supply and up to three 3.5" data storage drives will find room.

#### OPTIMAL AIRFLOW

The M25-V is designed to allow a cool flow of air to be distributed into the inside, while the warmth is conveyed outward through the back of the case. A 120 mm fan is pre-installed in the front panel and another is pre-installed in the rear panel. As an option, an additional fan can be installed behind the front panel. Under the top panel, there is even the possibility to mount three 120 mm fans, or, alternatively, two 140 mm fans. Three integrated dust filters protect the installed components from dust and dirt.

#### GENEROUSLY SPACIOUS

The optimal design of the inside of the M25-V enables the installation of power supplies with a length of up to 20.5 cm. Graphics cards with a maximum length of 40 cm can also be installed as well as CPU coolers with a height of up to 16.7 cm.

#### VARIABLE INSTALLATION POSSIBILITIES

For plenty of data storage, the M25-V has various installation possibilities for different kinds of drives. The case offers two 5.25" drive bays for optical drives. Alternatively, the supplied 5.25" front cover with a 3.5" opening enables one of the bays to be used for the installation of a card reader. Instead, if desired, two 2.5" HDD/SSDs can be installed in each of the drive bays. Also, in the tunnel in the bottom the case, there locations for three 3.5" drives or, alternatively, one 3.5" drive and two 2.5" drives. There are two locations behind the mainboard tray and another two on top of the tunnel for the installation of 2.5" HDD/SSDs.

#### TIMELESS, MINIMALIST DESIGN

The clear design of the M25-V, with its matte black exterior and mesh trims on the front panel, make this case a genuine all-rounder. Whether for a gaming setup or as a straight-forward office case, it will blend in perfectly.

### Specifications

Product Name	M25-V
Form Factor	ATX
Expansion Slots	7
Interior Painting	✓
Tool-Free Devices Installation	✓
Cable Management System	✓
Side Panel	Metal
Weight	6.5 kg
Dimensions (L x W x H)	45.0 x 21.0 x 46.5 cm

#### Max. Drive Bays

2 x 5.25" | 4 x 3.5" | 4 x 2.5"

#### I/O

USB 3.0 (Front): 2 | Audio (Front): ✓

#### Fan Configuration

Front Panel	2x 120 mm Fan (1x Pre-Installed, 1x Optional) or Radiator (Optional)
Rear Panel	1x 120 mm Fan (Pre-Installed)
Top Panel	3x 120 mm or 2x 140 mm Fan (Optional)*

#### Compatibility

Mainboard	Mini-ITX, Micro-ATX, ATX
Max. Length Graphics Card	40.0 cm
Max. Height CPU Cooler	16.7 cm
Max. Length PSU	20.5 cm
Max. Height Radiator incl. Fan (Front)	5.5 cm

#### Package Contents

M25-V, Accessory Set, Manual

#### EAN Code

M25-V 4044951019311
