

REBEL C80G RGB

Made for legendary gaming moments: The spacious Rebel C80G RGB ATX case combines a striking front-panel design with a showcase side-panel as well plenty of space for high-end hardware. A good airflow is ensured thanks to the perforated paneling combined with up to eleven fans or two radiators, while the detachable mounting frame and mounting bracket facilitate the installation of components. A graphics card holder and modern connections for smartphones and tablets are also included!

Features

DEEP INSIGHTS

Apart from the eye-catching front panel, the Rebel C80G RGB is equipped with a screwless side panel made of tempered glass to showcase the installed hardware and bring high-end components full into view.

JUST COOL

A total of four 120 mm PWM fans with addressable RGB illumination are already pre-installed in the Rebel C80G RGB: three in the front and one on the rear panel. In total, there is space for up to eleven 120 mm fans or up to two 360 mm radiators.

NO STRESS WITH INSTALLATION

The Rebel C80G RGB has a mounting frame, on which fans or, alternatively, a radiator can be installed and then inserted under the top panel. Similarly, HDDs or SSDs can be conveniently installed on a mounting bracket and then inserted behind the mainboard tray.

MADE FOR CHUNKY GRAPHICS CARDS

Because the Rebel C80G RGB has been made for big and chunky graphics cards, a graphics card holder with a rubberized support surface is pre-installed and at the ready. As with all Rebel series cases, the separately available Rebel C Series Vertical Graphics Card Kit 4.0 can be used for the vertical positioning and installation of the graphics card.

MAXIMUM SPACE

With the possibility of installing up to three 3.5" HDDs or up to three 2.5" SSDs, the Rebel C80G RGB allows for ample storage space. In addition, graphics cards of up to 40 cm and CPU coolers with a height of 16.5 cm will find room in the case, as well as power supply units with a length of up to 27 cm.

EASY CONNECTIONS

So that the latest devices can be easily connected, the Rebel C80G RGB has a USB-C port for mobile devices, two fast USB 3.0 ports and a TRRS port for audio and microphone.

Specifications

Product Name	Rebel C80G RGB
Form Factor	ATX (BTF)
Expansion Slots	7
Interior Painting	✓
Graphics Card Holder	✓
Cable Management System	✓
Side Panel	Tempered Glass
Color Versions	Black
Dimensions (L x W x H)	48.9 x 23.0 x 49.5 cm

Max. Drive Bays

3 x 3.5" | 3 x 2.5"

I/O

Type-C (USB 3.2 Gen 2) (Top): 1 | USB 3.0 (Top): 2 | Audio (Top): TRRS

Fan Configuration

Front Panel	3x 120 mm Addressable RGB LED PWM Fan (Pre-installed) or 3x 140 mm Fan (Optional)
Rear Panel	1x 120 mm Addressable RGB LED PWM Fan (Pre-installed)
Top Panel	3x 120 mm or 2x 140 mm Fan or Radiator (Optional)
Side Panel	4x 120 mm Fan* or Radiator (Optional)

RGB Compatibility

Type	Addressable
Ports	8
Manual Control	22 Modes
Mainboard Compatibility	MSI Mystic Light Sync, ASUS Aura Sync, Gigabyte RGB Fusion Ready, ASRock Polychrome Sync
RGB Pinout	5V-D-coded-G

Compatibility

Mainboard	Mini-ITX, Micro-ATX, ATX
Max. Length Graphics Card	40.0 cm
Max. Height CPU Cooler	16.5 cm
Max. Length PSU	27.0 cm
Max. Height Radiator incl. Fan (Top)	6.0 cm

Package Contents

Rebel C80G RGB, Accessory Set

EAN Code

Rebel C80G RGB 4044951041152

*1x 120 mm fan has same installation space for 1x HDD
