

TG4 RGB

With the TG4 ATX RGB midi tower, you can encase your hardware in elegant glass and rich colors. This is provided by the front panel and a side panel made of tempered glass and the four pre-installed LED 120 mm fans. The case design is oriented to the TG5. However, the TG4 is clearly more compact than its bigger brother and is especially suited for cost-conscious gamers who have air-cooling systems.

Features

EYE-CATCHER IN 16.8 MILLION COLORS

The TG4 RGB comes pre-installed with three addressable LED fans behind the front panel and another on the rear panel. These can be conveniently and creatively lit in 16.8 million colors via mainboards which have headers for addressable LEDs. Alternatively, if this mainboard connection is not available, the reset switch of the case can be used to select 14 lighting effects.

FULL VISIBILITY FOR HARDWARE

The tempered glass front and side panel give the TG4 RGB its stylish gaming look, and the hardware can be marveled behind its showcase. The LED fans provide an atmospheric illumination for the installed components, while the side air-inlets also ensure an adequate intake of air.

COMPACT WITHOUT COMPROMISES

The case design of the TG4 RGB is not only straightforwardly minimalist. It is also consciously designed to be as compact as possible, while ensuring that there is enough space for common hardware. Graphic cards with a length of up to 37.5 cm can fit into the TG4 as well as CPU coolers with a height of up to 16 cm. Power supplies up to 26.5 cm in length will also find room.

SUFFICIENT DATA STORAGE

The TG4 RGB offers numerous drive installation options. In total, up to two 3.5-inch drives and up to four SSDs can be installed. All drives can be quickly and easily mounted using slots on the inner side panel or via the hard drive cage on the bottom panel.

CLEAN AND TIDY

Various cable pass-throughs on the inner side panel ensure that cables simply disappear from view. To protect the TG4 RGB from dust and dirt, two removable dust filters are placed at each side of the front panel. This is supplemented by another removable dust filter on the underside of the case.

Specifications

Product Name	TG4 RGB
Form Factor	ATX
Expansion Slots	6
Interior Painting	✓
Cable Management System	✓
Side Panel	Tempered Glass
Weight	5.3 kg
Dimensions (L x W x H)	45.5 x 20.0 x 43.0 cm

RGB Compatibility

Type	Addressable
Ports	4
Manual Control	14 Modes
Mainboard Compatibility	MSI Mystic Light Sync, ASUS Aura Sync, Gigabyte RGB Fusion Ready, ASRock Polychrome Sync
RGB Pinout	5V-D-coded-G

Max. Drive Bays

2 x 3.5" | 4 x 2.5"

I/O

USB 3.0 (Top): 2 | Audio (Top): ✓

Fan Configuration

Front Panel	3x 120 mm Addressable RGB LED Fan (Pre-Installed)
Rear Panel	1x 120 mm Addressable RGB LED Fan (Pre-Installed)

Compatibility

Mainboard	Mini-ITX, Micro-ATX, ATX
Max. Length Graphics Card	37.5 cm
Max. Height CPU Cooler	16.0 cm
Max. Length PSU	26.5 cm

Package Contents

TG4 RGB, Accessory Set, Manual

EAN Code

TG4 RGB 4044951026685
