

# TG5 Pro RGB

With the TG5 Pro RGB, we've given one of our classics a thorough upgrade: The side panel, which is entirely made of tempered glass, puts the installed hardware into focus, while the cables, power supply and data drives are inconspicuously concealed. Impressive light effects as well as a cooling airflow are provided by the four pre-installed, addressable 120 mm RGB LED fans. The detachable fan tray for the front three fans also enables the easy installation of a water-cooling system.

## Features

### ILLUMINATED RGB FRONT

Three 120 mm addressable RGB fans illuminate nearly the whole surface of the front panel and lend the TG5 Pro RGB an incomparable look of radiance. Another fan is pre-installed on the rear panel, casting light into the interior of the case. The LEDs can be precisely controlled and illuminated as desired via the software of compatible mainboards which have a pinout of 5V-D-coded-G. If the mainboard does not have this connection, there is still a range of twenty lighting effects which can be operated with a manual control.

### SMART CASE DESIGN

The TG5 Pro RGB is designed for enhanced accessibility and easy installation. The side and front panels can be quickly and easily removed, allowing uncomplicated mounting of the components. Constant airflow is provided by the four 120 mm fans.

### FULL VIEW

While the glass front panel lets the illuminated fans shine through, the tempered glass side panel presents a view of the installed hardware. So that nothing spoils the good looks, there are no screws visible on the side panel.

### SPACE FOR HARDWARE

Graphics cards with 40 cm length, CPU coolers with a height of up to 16.7 cm and power supplies with a maximum length of 20.5 cm will all be comfortably accommodated within the case. Data storage drives of different sizes will also easily fit in. For three 3.5" HDDs or four 2.5" SSDs there is more than enough room.

### TIDINESS INSIDE

The power supply and the HDDs and SSDs are easily concealed in the power supply tunnel and behind the mainboard tray. The cabling disappears through the easily accessible cable pass-throughs, ensuring a tidy appearance every time.

## Specifications

Product Name	TG5 Pro RGB
Form Factor	ATX
Expansion Slots	7
Interior Painting	✓
Tool-Free Devices Installation	✓
Cable Management System	✓
Side Panel	Tempered Glass
Weight	7.9 kg
Dimensions (L x W x H)	45.2 x 21.5 x 46.5 cm

### RGB Compatibility

Type	Addressable
Ports	8
Manual Control	20 Modes
Mainboard Compatibility	MSI Mystic Light Sync, ASUS Aura Sync, Gigabyte RGB Fusion Ready, ASRock Polychrome Sync
RGB Pinout	5V-D-coded-G

### Max. Drive Bays

3 x 3.5"   4 x 2.5"
---------------------

### I/O

USB 3.0 (Top): 2   USB 2.0 (Top): 1   Audio (Top): ✓
--

### Fan Configuration

Front Panel	3x 120 mm Addressable RGB LED Fan (Pre-installed) or Radiator (Optional)*
Rear Panel	1x 120 mm Addressable RGB LED fan (Pre-Installed)
Top Panel	3x 120 mm or 2x 140 mm Fan (Optional)

### Compatibility

Mainboard	Mini-ITX, Micro-ATX, ATX
Max. Length Graphics Card	40.0 cm
Max. Height CPU Cooler	16.7 cm
Max. Length PSU	20.5 cm
Max. Height Radiator (Front)	5.2 cm

### Package Contents

TG5 Pro RGB, Accessory Set, Manual
------------------------------------

### EAN Code

TG5 Pro RGB	4044951029105
-------------	---------------

\* Optional radiators can be installed instead of fans
