

SKILLER SGD10

The SKILLER SGD10 is a robust gaming desk with a large tabletop for cleverly placing PC, keyboard, mouse and monitors. The tabletop is also completely covered with a mouse mat. A well-thought-out cable management is enabled thanks to a cable channel which runs behind the desk, as well as a channel for a desk leg and two openings in the tabletop. Also, a practical headset holder can be mounted to the left or right of the desk.

Features

WE'VE GOT YOU COVERED!

The SKILLER SGD10 comes with an integrated mouse mat that covers the entire top of the desk. Another mouse mat is therefore no longer needed. The mouse mat can be wiped with a cloth for cleaning.

ERGONOMICALLY DESIGNED

The dimensions of the tabletop of the SKILLER SGD10 are 160 cm long and 80 cm wide, so that several monitors can be strategically placed next to the PC, keyboard and mouse. The desk is also adjustable in height: It can be adjusted to three heights using the screws on the legs.

CLEVER CABLE MANAGEMENT

There is a cable channel along the back of the SKILLER SGD10 for effective cable management. Another cable channel can be magnetically attached on the left or right desk leg. There are also openings for cables in the top of the desk.

STABLE HOLD

Because the SKILLER SGD10 has a robust steel frame construction, stability is always provided. This is additionally supported by the especially large desk legs. The leveling feet can be screwed up or down for adjustment.

EXTREMELY RESILIENT

The SKILLER SGD10 can support a total load of 100 kg. Therefore, in addition to the setup, a lot more can be placed on it.
