

ELBRUS 1

The ELBRUS 1 gaming chair distinguishes itself with a design that has been inspired by futuristic command chairs, while the subtle color accents and the classic form will cut a good figure behind any kind of desk. Thanks to the breathable fabric cover, the ELBRUS 1 offers comfortable sitting whether in cold or in warm temperatures. When flipped up, the padded armrests will also ensure full freedom of movement for extensive maneuvers during excursions into virtual reality.

Features

BREATHABLE FABRIC COVER

The cover of the ELBRUS 1 is made of breathable fabric. In summer, this provides a high degree of moisture permeability and heat dissipation. In winter, in contrast to artificial leather, a warming coziness is ensured right from the first minute of the game. To look after the ELBRUS 1, the cover can be conveniently cleaned with a conventional cleaning agent and a fluff-free cloth.

FLIP UP/DOWN, PADDED ARMRESTS

For maximum freedom of movement in virtual worlds or when using racing peripherals, the armrests of the ELBRUS 1 can be easily folded up. The armrests have also been furnished with a soft padding to comfortably support the arms over longer periods of work or gaming.

TILT MECHANISM

The ELBRUS 1 has been equipped with a conventional tilt mechanism. Especially during tense gaming situations, this complements the user's natural need to move by providing a pleasant rocking motion. The tilt mechanism can be easily locked or unlocked as required using a handle on the underside of the chair.

DESIGNED FOR USERS UP TO 120 KG AND 190 CM

The steel five-star base and the class-4 gas lift piston ensure that the ELBRUS 1 gaming chair can reliably support a load of up to 120 kg. In addition, the chair is suitable for users up to 190 cm.

Specifications

Product Name	ELBRUS 1
