

SKILLER SHC10

HEADREST CUSHION

If you want to relax your neck muscles when sitting for a long time, you can use a neck and headrest cushion. And this is where the SKILLER SHC10 comes in: Its memory foam adapts optimally to the shape of the head but still returns to its original form at any time. It is suitable for any chair with a high backrest.

Designed for Comfort

The SKILLER SHC10 supports a healthy head posture and provides significant relaxation of the neck muscles.

The memory foam supports this by flexibly adapting to the shape of the head, while it returns to its original form as soon as the pressure is removed from the cushion.

Easy to Wash

The cushion cover of the SKILLER SHC10 is made of a comfortable fabric that is very easy to clean: Turn the cover inside out, close the zipper, and then it can be washed by hand.

The inner lining and the memory foam must not be cleaned under any circumstances.
