

# SKILLER SGK40

With an elegant diamond-cut, aluminum casing and the Edge Light illumination along the back of the keyboard, the SKILLER SGK40 will prove to be a real eye-catcher. Apart from its chic looks, this gaming keyboard has a full 3-block layout with a variety of function keys. In addition, there is an extensive gaming software, with which the SGK40 can be easily customized, whether it's for the favorite illumination or the creation of macros.

## Features

### RESPONSIVE SWITCHES FOR GAMERS

The SKILLER SGK40 relies on fast-actuating switches without feedback for an especially immersive gaming experience. The red switches from Huano have a low operating force of 45 g and a short distance to the actuation point of 2 mm. With a life cycle of up to 50 million keystrokes, they are also particularly durable and designed for many hours of intensive gaming.

### RGB ILLUMINATION WITH EDGE LIGHT

When it comes to looks, the SKILLER SGK40 not only boasts a regular RGB key illumination with 16.7 million colors, but the keyboard also gleams with an additional RGB lighting along the back of the keyboard. Using the downloadable, high-performance gaming software, both the regular key illumination and the Edge Light can be customized, turned off completely, or animated with one of 15 unique lighting effects.

### EASY MACRO RECORDING

Using the downloadable software, macros can be recorded and then used in any one of up to 20 game profiles. Up to 391 macro actions can be recorded and then, if desired, individually readjusted to create the perfect macro. A particularly important macro can be instantly played back, whenever needed, via a separate macro key.

### A VARIETY OF FUNCTION KEYS

Apart from macro keys, the SGK40 also has various function keys that can be used to easily set and control media. In addition to a play and pause function, the volume can also be quickly adjusted, or you can switch between different media. Moreover, other functions are available to make everyday life easier, such as quick access to emails, the Explorer or other applications.

### EYE-CATCHING HIGHLIGHTS

With a full 3-block layout with spacious dimensions of 450 mm in length, 165 mm in width, and a height of 38 mm, the SKILLER SGK40 will be the highlight on any gaming desk, where both impressive looks and wide-ranging functionality are equally the top requirements.
