

# SKILLER SGK50 S4 GEN2

With the SKILLER SGK50 S4 Gen2, our bestselling keyboard has been given an update. The Gen2 version has everything that our SGK50 series has always had, including hot-swap switches and keycaps, as well as a stylish coiled cable. In addition, the keyboard is now fully customizable using the open-source software VIA and QMK, and there is improved sound thanks to the polycarbonate plate and double-layer silicone damping.

## Features

### ■ PRE-INSTALLED YELLOW SWITCHES FROM GATERON

The SKILLER SGK50 S4 Gen2 is fully designed for gaming, which is why the popular Gateron Yellow linear switches are already pre-installed.

### ■ CUSTOMIZABLE TYPING EXPERIENCE

Any switch with 3 or 5 pins can be used with the SKILLER SGK50 S4 Gen2, allowing you to enjoy experimenting with switches to achieve the optimal typing feel. The required hot-swap tools are already included with the keyboard.

### ■ COMPACT FORM FACTOR

The SKILLER SGK50 S4 Gen2 catches the eye with its compact form factor that is 60 percent of a full 3-block keyboard. Nevertheless, thanks to the double assignment of keys for important commands, a layout with full functionality can be relied on.

### ■ FULL CUSTOMIZATION THANKS TO OPEN SOURCE

To conserve computer resources, the SKILLER SGK50 S4 uses quick, on-the-fly adjustments without the need for software. However, for full customization, the Gen2 models can also be modified using the open-source software VIA and QMK.

### ■ KEYBOARD SOUND OF THE NEXT GENERATION

To ensure that the keyboard sounds as good as it looks, we have given the Gen2 version a polycarbonate positioning plate and double-layer silicone damping to provide a rich, deep typing sound.

### ■ STYLISH USB COILED CABLE

Like all keyboards in the SGK50 series, the S4 Gen2 comes with a detachable coiled cable that has a USB-C to USB-A connection and provides a particularly chic look for any setup.

### Compatibility

PCs/Notebooks, PlayStation 4\*, PlayStation 5\*

\* With deactivated NKRO: Use the open-source VIA software to assign any keyboard key with the command "Toggle NKRO", and press this key to deactivate.

## Specifications

Product Name	SKILLER SGK50 S4 Gen2
Type	Wired Keyboard
Switch Technology	Hot-Swap
Number of Keys	61 ANSI / 62 ISO
Keycap Material	ABS
Keycap Legend	Laser
Illumination	RGB
Adjustable Illumination	✓
Lighting Effect	✓
Max. Polling Rate	1,000 Hz
Form Factor	60 % Layout
Onboard Memory for Game Profiles	✓
Capacity of Onboard Memory	256 kB
Detachable Cable	✓
Weight incl. Cable	670 g
Weight without Cable	602 g
