

# SKILLER SGK50 S4 GEN2 BAREBONE

Like the other keyboards in the series, the Barebone version of the SKILLER SGK50 S4 Gen2 is designed for the easy hot swapping of switches and can be fully customized using the VIA and QMK open-source software. However, in contrast to the standard or PBT versions of the keyboard, the Barebone comes without pre-installed switches and keycaps and is therefore ideal for the determined and creative hobbyists who strive to personalize and optimize their own typing experience.

## Features

### ■ FOR THE CREATIVE AND THE DETERMINED

The SKILLER SGK50 S4 Gen2 Barebone will be the perfect choice for those who already have a good idea about the keycaps and switches they really want to have. This is because the keyboard is supplied without any pre-installed switches and keycaps, allowing for the complete personalization of the layout.

### ■ CUSTOMIZABLE TYPING EXPERIENCE

Do you prefer the personal touch? That's no problem! Switches of your choice with 3 or 5 pins can be easily installed and used on the SKILLER SGK50 S4 Gen2. Of course, the tools required for hot swapping are already included with the keyboard.

### ■ COMPACT FORM FACTOR

The SKILLER SGK50 S4 Gen2 Barebone catches the eye with a compact form factor that is 60 percent of a full 3-block keyboard. Nevertheless, thanks to the double assignment of keys for important commands, a layout with full functionality can be relied on.

### ■ FULL CUSTOMIZATION THANKS TO OPEN SOURCE

To conserve computer resources, the SKILLER SGK50 S4 PBT uses quick, on-the-fly adjustments without the need for software. But for even more customization, a full range of adjustments and settings is possible, as and when required, thanks to the open-source software VIA and QMK.

### ■ SOOTHING KEYBOARD SOUND

To ensure that the keyboard sounds as good as it looks, the SKILLER SGK50 S4 Gen2 Barebone has a polycarbonate positioning plate and double-layer silicone damping for a rich, deep sound.

### ■ STYLISH USB COILED CABLE

Like all keyboards in the SGK50 series, the S4 Gen2 Barebone comes with a detachable coiled cable that has a USB-C to USB-A connection and provides a particularly chic look for any setup.

## Specifications

Product Name	SKILLER SGK50 S4 Gen2 Barebone
