

SKILLER SGK50 S4 GEN2 PBT

Apart from the modern look with its compact form factor, coiled cable and RGB illumination, the SKILLER SGK50 S4 Gen2 PBT also has the latest linear switches from the specialist Gateron, as well as keycaps made of high-quality, abrasion-resistant PBT. Of course, as you would expect from this keyboard series, the keycaps and switches can be hot swapped, and all keyboard functions can be customized thanks to the open-source VIA and QMK software.

Features

■ HIGH-QUALITY TYPING

For a high-quality typing experience, we have equipped the SKILLER SGK50 S4 Gen2 PBT not only with the latest generation of yellow G Pro switches, but also with abrasion-resistant keycaps made of high-quality PBT.

■ CHOOSE YOUR SWITCHES

However, if you would like to especially customize your typing experience, other keycaps or any other switches with 3 or 5 pins can be used with the SKILLER SGK50 S4 Gen2 PBT. The necessary hot-swap tools are already included with the keyboard.

■ COMPACT FORM FACTOR

The SKILLER SGK50 S4 Gen2 PBT catches the eye with a compact form factor that is 60 percent of a full 3-block keyboard. Nevertheless, thanks to the double assignment of keys for important commands, a layout with full functionality can be relied on.

■ FULL CUSTOMIZATION THANKS TO OPEN SOURCE

To conserve computer resources, the SKILLER SGK50 S4 Gen2 PBT uses quick, on-the-fly adjustments without the need for software. But for even more customization, a full range of adjustments and settings is possible, as and when required, thanks to the open-source software VIA and QMK.

■ SOOTHING KEYBOARD SOUND

To ensure that the keyboard sounds as good as it looks, the SKILLER SGK50 S4 Gen2 PBT has a polycarbonate positioning plate and double-layer silicone damping for a rich, deep sound.

■ STYLISH USB COILED CABLE

Like all keyboards in the SGK50 series, the S4 Gen2 PBT comes with a detachable coiled cable that has a USB-C to USB-A connection and provides a particularly chic look for any setup.

Compatibility

PCs/Notebooks, PlayStation 4*, PlayStation 5*

* With deactivated NKRO: Use the open-source VIA software to assign any keyboard key with the command "Toggle NKRO", and press this key to deactivate.

Specifications

Product Name	SKILLER SGK50 S4 Gen2 PBT
