SKILLER SGK55W

The SKILLER SGK55W from Sharkoon takes gaming to a new level: Equipped with a rotary knob for volume control, this elegant 75 % layout is combined with a gasket-mount design for an especially smooth typing experience. In addition, the pre-lubed Sharkoon switches, robust PBT keycaps, and dynamic ARGB illumination all make this the ideal dual-mode keyboard for those thrilling gaming matches.

Features

- **PLEASANT TYPING EXPERIENCE**
  The SKILLER SGK55W impresses with a pleasant typing feel and a deep, subdued acoustic thanks to its gasket-mount design with a polycarbonate positioning plate as well as a silicone layering and a sound-insulating, double-layer foam damping.

- **PRECISE SHARKOON SWITCHES**
  The pre-lubed switches have been specially developed for Sharkoon, and their smooth, resistance-free linear feedback makes them ideal for fast inputs when gaming or chatting.

- **DURABLE KEYCAPS**
  The SKILLER SGK55W comes with extra-thick, Cherry profile keycaps that are made of PBT and manufactured using the double-shot process and are therefore especially durable and abrasion resistant.

- **READY – WITHOUT LIMITS**
  The south-facing ARGB illumination of the SKILLER SGK55W ensures an even illumination across the keyboard. At the same time, hours of uninterrupted gaming sessions are ensured thanks to dual mode, with either wired or 2.4 GHz wireless operation, together with the long-lasting 4,000 mAh battery.

- **PERSONALIZED ADJUSTMENTS**
  Thanks to the hot-swap PCB and VIA compatibility, both the switches and the functions of the SKILLER SGK55W can be easily customized according to personal needs and preferences.

- **COMPACT LAYOUT**
  The space-saving 75 % format of the SKILLER SGK55W combines compactness with functionality and includes a practical rotary knob for volume control.
