

FIREGLIDER ONE

Ready to rekindle the fire? With the FIREGLIDER One, a classic returns – but this time, faster, lighter, and more precise than ever before! The dual-mode gaming mouse combines uncompromising technology with a minimized design that is totally committed to good performance. Whether in competitions or for everyday gaming, the FIREGLIDER One delivers lightning-fast reactions and maximum control for heating up any game to exactly the right temperature.

Features

■ TWO MODES, ONE GOAL: VICTORY

The FIREGLIDER One can be operated both wired and wirelessly and is always ready for use, whether you need a stable connection for a tournament or if you prefer wireless freedom for everyday gaming.

■ PRECISION WITH EVERY MOVE

The FIREGLIDER One's PAW3311 optical sensor delivers up to 12,000 DPI, ensuring pixel-perfect headshots or quick changes of direction with blazing accuracy.

■ FIERY RESPONSE TIME

With a polling rate of up to 1,000 Hz and a low click latency, the FIREGLIDER One provides immediate feedback. Every click and every move is implemented in real time, and you'll already have reached your target long before the smoke has cleared.

■ LIGHT AS A FEATHER AND UNSTOPPABLE

Weighing less than 50 grams, the FIREGLIDER One is as light as a feather, but all the more powerful in its effect. The ultralight design ensures effortless maneuvers and quick flicks and is ideal for intense battles where every millisecond counts.

■ ERGONOMICS THAT MATTER

The FIREGLIDER One is designed for large and normal-sized hands and impresses with its symmetrical form for right-handed use. To ensure your passion for gaming never fades, it remains comfortable and stable in the hand even during long sessions.

■ SIMPLE IN APPEARANCE, STRONG INSIDE

Although the FIREGLIDER One does away with the iconic flame design of its predecessor, it continues to glow inside with uncompromising performance, precise technology, and a focus on the essentials.
