

1. Switch off your PC and disconnect the power cord.
2. Open the PC case.
3. Remove the 3.5" mounting bay's front bezel.
4. Slide the Media Reader 3 into the mounting bay.
5. Attach the Media Reader 3 from both sides inside the mounting bay using the included screws.
6. Connect the Reader's USB cable to an available USB connector on the mainboard (for further information also refer to your mainboard's manual) and the power connector to a matching connector of your PSU.
7. Close the PC case and restart your PC.
